Walter Gropius

Walter Gropius was born in 1883. Walter Gropius is one of the most important Bauhaus designers in history. In the early 20th century, Gropius studied architecture and then joined Peter Behrens' design office, as did Mies van der Rohe and Le Corbusier.

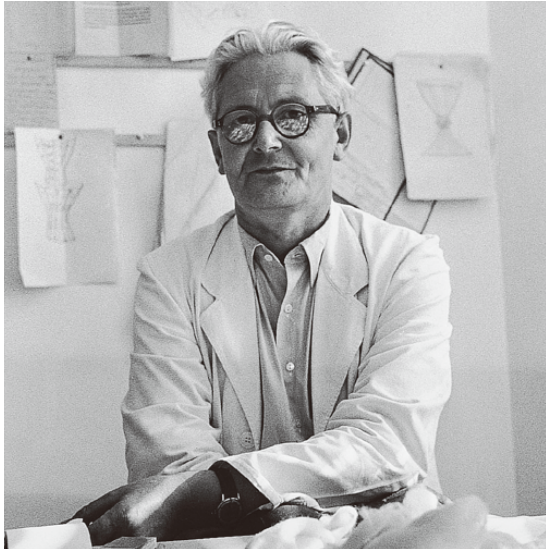

As a freelance architect and industrial designer, Walter Gropius later designed the Gropius Handle, which has become widely known today.

作为一名自由建筑师和工业设计师，沃尔特格罗皮乌斯后来设计了格罗皮乌斯把手，这在今天已经广为人知。

The Bauhaus international school was founded in Weimar, Germany in 1919 by architect Walter Gropius.

The Bauhaus school has had a profound influence on modern architecture. Today's Bauhaus no longer refers only to the school, but to the collective name of the architecture school or style it advocates, focusing on the integration of architectural form and practical function. In addition to the field of architecture, Bauhaus has a significant impact on the development of art, industrial design, graphic design, interior design, modern drama, modern art and other fields.

包豪斯学校对于现代建筑学的深远影响，今日的包豪斯早已不单是指学校，而是其倡导的建筑流派或风格的统称，注重建筑造型与实用机能合而为一。而除了建筑领域之外，包豪斯在艺术、工业设计、平面设计、室内设计、现代戏剧、现代美术等领域上的发展都具有显著的影响。
